By Debi Montgomery  
Clue 4

Let's make some units today from what we have already sewn and cutting one more square. First, let's cut LIGHT 3-1/2" squares. Here's your cutting chart for those:

	Lap	Twin	Queen	King
LIGHT 3-1/2" strips	4	4	5	7
-cut to squares	40	48	60	84

Let's use the flying geese from clue 3, the 2" strip set units from clue 2, and the smaller of the two units from clue 1 (1-B units). Here is the unit for today:

Now let's deconstruct it and get it sorted! First, let's take those flying geese (clue 3) and 2" DARK/MEDIUM 2 units from clue 2 and put them together. Please press away from the flying geese. When you are finished your units should be a 3-1/2" square and you will have the number listed on the chart for your size:

	Lap	Twin	Queen	King
Flying geese/ square units	80	96	120	168

De-constructed units:

Now, let's use those units with the squares we cut above and the clue 1 units to finish this unit for today. **Be sure to watch your layout with the flying geese and which way they are flying.** Please press the easiest way for you. Here is the deconstructed unit:

You should have this many 6-1/2" square units when finished for today:

	Lap	Twin	Queen	King
Square units	40	48	60	84
