

*Precious Memories*  
*By Debi Montgomery*  
*Clue 6 REVEAL*

*And here she is in all her beautifulness! I hope you love this as much as I do. Dedicated to all our fur babies in Turbo's memory.*

*This quilt has two blocks. Let's just jump right in and get to the easier of the two, although they are both pretty easy now that we have all the bits and pieces. This block takes Clue 1-A units and the hourglasses and squares we cut in clue 5.  
Deconstructed Block 1:*

*We will put them both together like a 9-patch. Firstly, let's make the top and bottom of this unit.*

*And now the centre:*

*Now let's do the second block:*

*Again, assembling like a 9-patch, let's make the tops and bottoms first:*

*The centre section is the DARK/LIGHT units we made in the strip sets with the MEDIUM 1 square we cut in clue 5 for the centre.*

*Layout is easy, just alternate the blocks so that no two of the same block are touching. When finished press in the easiest way to make it lay flat. Hope you love this quilt as much as I do.*

*I will add a DARK frame border, then a wider border around that, probably in one of the MEDIUMS. Can't wait to see yours!*
