

Spring Fling Table Runner

By Debi Montgomery

Clue 1

Let's get the hardest unit out of the way first. We will be using our green and background colour (my cream tone on tone).

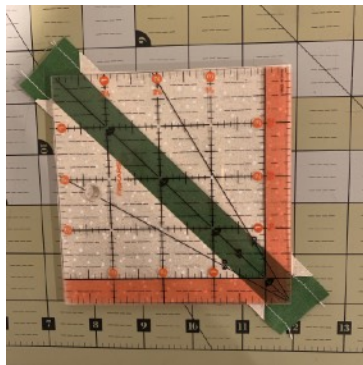

Here's your cutting chart:

Green 1-1/4" strip	1
-cut to 7" lengths	4
Background 4-3/8" strip	1
-cut to 4-3/8" squares	4
-cut on ONE diagonal	8

Now we need to find the centre of our units, I did this by finger pressing each cut unit a follows:

Sewing the GREEN to the long side of the triangle matching the centre "folds" makes this very easy to complete. I would only lightly press (even finger press) because we need these seams to nest later and don't want to flip a pressed seam. Trim the unit to 4-1/2", this will take off the squareness and make those green bits "points".

Finished unit:
