### Clue 2

Today we are going to be cutting triangles and squares and making new triangles from these units. It is hard to measure to let you know what size your units will be today. No special rulers, so it's pretty straight forward.

Let's do the cutting first:

	Lap	Twin	Queen	King
LIGHT 4-1/4" strips	3	4	5	8
-cut to 4-1/4" squares	20	34	42	72
-cut on BOTH diagonals for triangles	80	136	168	288
MEDIUM 2-5/8" strips	3	5	6	10
-cut to 2-5/8" squares	40	68	84	144

Using your LIGHT triangles, sew one to adjacent sides of your MEDIUM squares. We will have a larger triangle as our finished unit for today. Pretty easy, I'd say. No rulers, only triangles and squares. The pic is first side finished, getting ready to sew on the second triangle for the finished unit.

### **OPTIONAL CUTTING METHOD:**

Cut 2-3/4" strips and use your easy angle for the HSTs. If you are using this method, you may want to mirror image (keep fabric right sides together) your LIGHT fabrics before cutting. **THIS IS FOR THE LIGHT ONLY.**
