Border 5 - Final Border

This is the final border we did, but you can keep going if you want. You may want to put one more DARK border around the outside, but I used my DARK as my binding and found it looks amazing. This border is VERY EASY. We will be using the tri-recs tool again for 8 triangle units and then solid strips for in-between those triangles!!

First, let's do those triangle units:

<i>RED 5-1/2" strip or leftovers</i>	<i>1</i>
<i>-cut using the "tri" part for triangles</i>	<i>8</i>
<i>DARK 5-1/2" strip left folded in half RST</i>	<i>1</i>
<i>-cut using the "recs" part for triangles</i>	<i>16 (8 sets)</i>
<i>Total tri-recs units today</i>	<i>8</i>

We will assemble these exactly like we did in Border 4. Here is the deconstructed block:

Now we need four (4) 5-1/2" DARK strips, each one with a tri-recs unit on the end with the RED end toward the centre and the point toward the outside. (Just make sure they are both pointing in the same direction, black touching black.)

Here is what you need:

<i>DARK 5-1/2" x 50-1/2" strips</i>	<i>4</i>
<i>DARK 5-1/2" squares</i>	<i>4</i>
<i>Red/DARK tri-recs units</i>	<i>8</i>

You will sew a tri-recs to the end of each 50-1/2" strip, making sure they point in the same direction. Taking two of these units and adding a 5-1/2" square on each end, you will have the entire border ready to put on the centre! Great job!

Here is the final pic with all borders added. All I need to do is add my buttons for eyes. These buttons need to be 22-25mm (3/4 - 1") and placed anywhere on the head you wish!!

Have fun with it! These Blustery Buddies are ADORABLE!!!!
