Clue 1

We will start with the largest cuts and move down from there. For this design, those large cuts are four and nine patch units. We need ONE blank space of our neutral, we will cut that square today and move forward with using the leftover WOF from that.

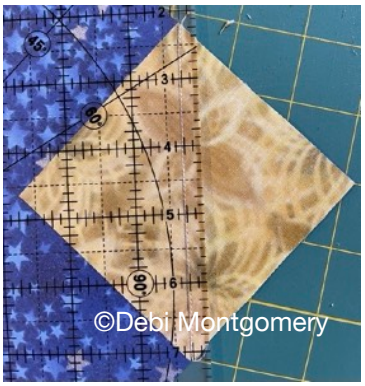
Let's get started! Block A:

NEUTRAL (Background)	
12-1/2" WOF strip	*1*
Sub-cut to 12-1/2" squares	*1*

That's all for that! Set this aside for the final layout and let's move on with some 4-patch units. Block B: (8 of these)

NEUTRAL (Background)	
6-1/2" WOF strips	*Leftover from above + 2*
Sub-cut to 6-1/2" squares	*16*
YELLOWS	
3-1/2" WOF strips	*2*
Sub-cut to 3-1/2" squares	*16*
BLUES	
6-1/2" WOF strips	*3*
Sub-cut to 6-1/2" squares	*16*

These units are very easy to complete. Let's draw ONE diagonal line on the wrong side of our YELLOW 3-1/2" squares. From here, we will mate each YELLOW square with a BLUE square and stitch ON or just to the right of the line. We will trim back to the 1/4" seam allowance and press toward the yellow. These unit should still be 6-1/2", but may need to be "squared" up.



Now we are ready to stitch our entire block together. Grab those NEUTRAL 6-1/2" squares and let's do this!

Block C: (4 of these)

NEUTRAL (Background)	
9-3/4" WOF strips	*1*
Sub-cut to 9-3/4" squares	*2*
Cut squares on BOTH diagonals for triangles	*8*
4-1/2" WOF strips	*Scraps from above*
Sub-cut to 4-1/2" squares	*4*
YELLOWS	
5-1/8" WOF strips	*1 each yellow (2 total)*
Sub-cut to 5-1/8" squares	*8 each fabric (16 total)*
Cut squares on ONE diagonal for triangles	*16 triangles each fabric*
BLUES	
9-1/4" WOF strips	*1*
Sub-cut to 9-1/4" squares	*2*
Cut squares on ONE diagonal for triangles	*4*

For this block, please trim EACH step as these measurements are just a tad large and we need to trim down for everything to work properly.

Let's start with those NEUTRAL triangles from the 9-3/4" squares and the YELLOW triangles. I did cut two different yellows to get some movement for this block. We will be making flying geese with these. We WILL NOT use all the yellow triangles. We need one yellow on each side, we need to remain consistent with the side we start with. I cut mine a bit small so they were tight, but gave you some more wiggle room. ***PLEASE*** *trim these to 4-1/2" x 8-3/4", this will be the largest trim.*

We will use those remaining YELLOW triangles to make some HST. These don't need to be trimmed, but please make sure they remained "square. I trimmed the "dog ears" and sliver trimmed to make sure they were square.

Let's use these HSTs to make a larger triangle, stitching the "opposite" yellow to adjacent sides. This larger triangle should now be the same size as the BLUE triangles we cut.

Adding those blue triangles will give us this unit.

Please trim this square down to 8-3/4". We are ready to assemble!

Trim the finished square to 12-1/2". You should only have to sliver trim.
