Clue 5

For this clue, we have some cutting to do for Clue 6. We also will make one Block A. It's time to bring out those tri-recs I mentioned in the fabric requirements and we will have some fun. We can probably get everything we need for this block from scraps, give it your best shot. Grab your rotary cutters and rulers, let's cut!

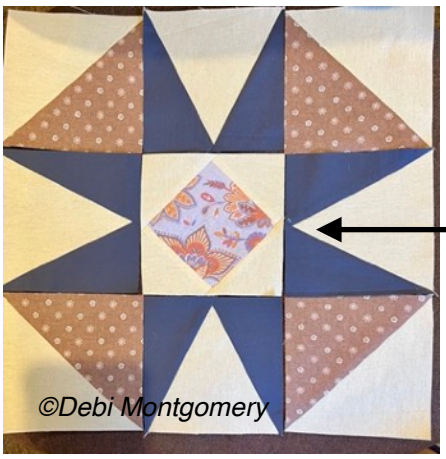
***Please lay these right or wrong sides together before cutting.*

We only have one of these to complete. We will assemble a square in a square with the MEDIUM square and the BACKGROUND triangles we cut.

This ONE unit should be pressed away from the square and once complete, trim down to 2-1/2", 4-1/2" OR 5-1/2" and let's do our tri-recs triangles next.

You will have four of these. Once assembled, please press toward the outside triangles and trim to 2-1/2", 4-1/2", or 5-1/2".

Now those final squares, we are going to make HSTs with these. You can either cut these on ONE diagonal OR draw one diagonal line and stitch 1/4" to the left and right of your line. Once again, when complete these should be trimmed to 2-1/2", 4-1/2", or 5-1/2".



Let's lay this beauty out!!

Please be aware when you assemble, there is quite a bit of bulk here. Please press open or in the most flat way.

I think it's an amazing block! Once assembled, your final block should measure 6-1/2", 12-1/2", or 15-1/2".

We are ready to lay this out and assemble in the way you choose. There are several options on the website under the sneak peek page, which I have now made public.

We do need to do a bit more cutting if you are adding lattice. If you are turning on point, you will also need to cut some setting and corner triangles. I have decided to go straight and with the lattice and cornerstones. If you choose on-point please ask for those triangle sizes if you need them.

We need to cut the lattice and cornerstones I spoke about in the fabric requirements. If you chose NOT to add this into your design, you are finished for this clue. If you are adding the lattice and cornerstones, we need to cut: MAKE SURE YOU DECIDE ON-POINT OR STRAIGHT BEFORE CUTTING ALL LATTICE. You may want to cut as you go!!

LATTICE *(Dark ?)*	*6" blocks*	*12" blocks*	*15" blocks*

The pics also include a MEDIUM/DARK small final border. You may want to include this as well.

You are sure to find an amazing layout you love. HAVE FUN WITH THIS!!
