 Fabric Requirements

I love the design and simplicity of this beauty. I love the story behind it and that Christmas means so much to so many. I know you want to start collecting fabrics, so we will just get this out there to you. I am offering this in two sizes, 9" blocks so your quilt can start as small as 54". I have added two borders and a lattice to make it interesting and larger. I will also give you a 12" block that will start at 72" without lattice or borders.

We need three fabrics for this. You can choose anything you want, just make sure your fabrics all have FANTASTIC contrast between them, maybe light, medium, and dark for a start. Truly YOUR choice of fabrics and hues. You will have a much better result if you have heaps of contrast.

The fabric in the charts INCLUDES all borders, lattice, and binding. If you have what is in the charts, you will have plenty of fabric to play with. Just remember they are included and you could skimp by with less if you don't add the borders or lattice.
