Clue 4

You will find this clue VERY easy as we will finish up the remainder (four) of the snail trails. Following this, we will cut and assemble HST units to create our four larger blocks. Too easy, so let's just get it done.

Block A: four remaining snail trail units…

We will grab the remaining FOUR 4-patch units and the second half of the triangles we didn't use in Clue 3.

Our clue last time was the same fabric is first under the needle. For this clue, to help us keep our snails crawling in the opposite direction, our "like" fabrics will be LAST under the needle. I gave you the chart for sizes along the way so you don't have to go back to Clue 3 to find it.

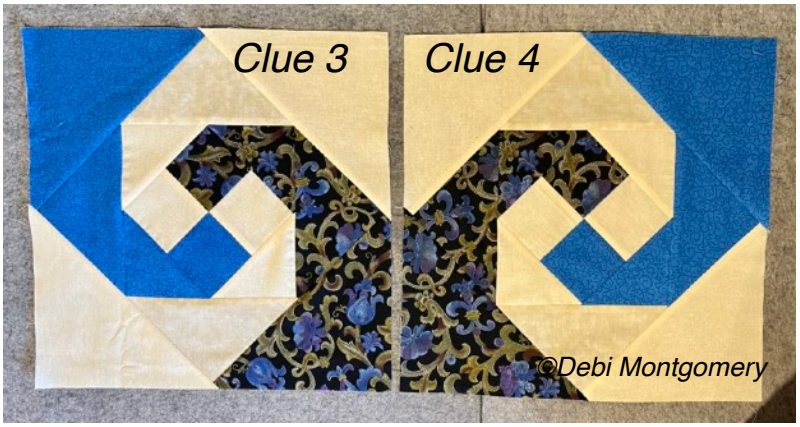
Round 1:

Round 2:

Round 3 (final)

Complete, again these measure 9-1/2" or 12-1/2" and you should have four.

Please note the mirror image between clue 3 and clue 4 units.



Here are those measurements again.

	9" blocks	12" blocks
4-patch	3-5/8"	4-3/4"
Round 1	5"	6-1/2"
Round 2	7-1/4"	9-1/8"
Round 3 (final)	9-1/2"	12-1/2"

Block B: four HST blocks:

BACKGROUND	9" blocks	12" blocks
5-3/8" WOF strips	Scraps + 1	
Sub-cut to 5-3/8" squares	8	
6-7/8" WOF strips		Scraps + 1
Sub-cut to 6-7/8" squares		8

The following chart is for TWO fabrics, you've got this by now!!

CONTRAST and **FOCUS**	9" blocks	12" blocks
5-3/8" WOF strips	Scraps + 1	
Sub-cut to 5-3/8" squares	4	
6-7/8" WOF strips		Scraps + 1
Sub-cut to 6-7/8" squares		4

We need to assemble eight BACKGROUND/FOCUS and eight BACKGROUND/CONTRAST units. Our HSTs will measure 5" or 6-1/2". EASY.

We will lay out our HSTs like this. We should have enough to make FOUR of these 9-1/2" or 12-1/2" blocks.

Deconstructed:

Complete:

See you in clue 5!
